

Xiaoyu Liu

courses completed

Linear Matrix Inequalities in Control

Prof.dr. S. Weiland and dr. M.C.F. Donkers

*Spring 2021*

Nonlinear Control Systems

Prof. dr. B. Jayawardhana and dr. B. Besselink

*Winter 2021*

Mathematical Models of Systems

Dr. J.W. Polderman, prof. dr. H. Trentelman and prof. dr. S. Trenn

*Winter 2021*

Modelling and Control of Hybrid Systems

Dr.Ir. M. Mazo Jr. and dr.ir. R. Postoyan

*Spring 2022*

Design Methods for Control Systems

Dr. ir. T.A.E. Oomen and prof. dr. ir. J.W. van Wingerden

*Spring 2022*

Presentation at 41 Benelux Meeting on Systems and Control

*Summer 2022*

**Other graduate courses**

Trail Research School

Reinforcement Learning for Operations Management

*Winter 2021*

A course certificate is awarded to anyone who has completed a course program of at least 21 ECTS Credits offered or approved by the Dutch Institute of Systems and Control, DISC. DISC is an interuniversity graduate school and research institute in the area of systems and control, founded on January 1, 1995.

for the Dutch Institute of Systems and Control, February 6, 2023.

  
Prof.dr. H. Nijmeijer

scientific director

dutch institute  
of systems  
and control
